

rōllator–rest

Now you sit comfortably
and safe on your rollator

Easy, comfortable
and safe transport
of rollator users

rollator–rest

Benefits for passengers with a rollator

The **rollator-rest** provides more comfort and safety.
Passengers with a rollator...

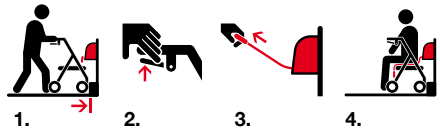

- can sit on their familiar device,
- have no stress to look for a seat,
- don't have to move to a seat, and leave the rollator behind
- don't have to secure the rollator,
- always have one or two hands on a stable point at any time.

Benefits for operators

The **rollator-rest** gains ...

- **time:** no waiting till the passenger moves to a seat.
- **capacity:** passengers with a rollator don't use a seat.
- **safety:** passengers with reduced mobility can sit securely.

The unit can also be used as leaning perch

Heinz Illi, safety officer at Zurich Public Transport (VBZ):
"I was surprised by the convincing results during the on-road test in Zurich. I would like to get the rollator-rest as soon as possible to solve this continuous issue in our vehicles."
